

QUALITY POLICY

The Company is committed to providing a Quality service, which consistently & continuously meets the requirements of its customers whilst protecting assets under its care, its employees and the environment in general.

This is achieved by establishing & discharging managerial & operational processes which have emerged from the combination of sound managerial principles and long lasted experience in the Shipping Industry.

The Company aims to remain a quality service provider by:

- Meeting customer requirements as defined in the relevant Charter Parties
- Developing and implementing controlled processes
- Continual improvements in operational responsiveness
- Complying with the requirements and implementing of the current editions of ISO 9001/14001/18001/50001 Standards and ISM Code as well as continually improving its Management System
- Establishing and communicating measurable & consistent objectives and performance targets to company employees
- Complying with applicable statutory requirements, international legislation and classification society requirements
- Operating vessels without accident(s) or incident(s) that could endanger company's employees, the environment or assets under the company's care
- Complying with current Health, Safety and Environmental legislation
- Developing employee skills and increasing their contribution through effective training.

All Company employees, shore based and sea-going are responsible for implementing the company's Quality Policy.
